Vigilo

ACCESSORIES

Total cool. With the engine off.

Rooftop air conditioning for motorhomes, trucks and machinery, with built-in GPS tracking and temperature sensor. Comfort inside, peace of mind outside.

One unit, three worlds

Motorhomes

Cool nights when wild camping, and your pet watched over while you're away.

Trucks

Real rest during breaks, no idling, and your truck always tracked.

Machinery

More comfortable operators and machines protected against theft.

Your vehicle alerts you. Wherever you are.

AERONOX integrates a GPS tracking system with a temperature sensor. Connect your vehicle's alarm too, and get everything that matters right on your phone screen.

Powerful inside. Discreet outside.

- Fast, quiet cooling Efficient DC compressor for constant comfort.
- Just 160 mm high Low profile, ideal for tight height clearances.
- Digital indoor panel Touch control of temperature and modes.
- Roofs from 50 to 90 mm Retractable air outlets that adapt to roof thickness.

Numbers that matter

8,000 BTU / 2,000 kcal/h of cooling in a compact unit that fits most roofs. See full specs →

5-year warranty on the compressor

The heart of the unit, protected for five years. We believe in what we sell and we back you every mile of the way.
