Vigilo

ACCESSORIES

Watch your fleet live: the road and the cab

Cameras with 4G, GPS and artificial intelligence. Live video, ADAS and DMS alerts and recording of every trip, on the same Vigilo platform.

1080p video · **4G + GPS** · **AI-powered ADAS + DMS** · **Up to 512 GB**

LIVE VIDEO

This is what you see on the platform

Live video over 4G

Remote real-time access to the cameras from the platform and the app.

Recording with audio

Automatic and alarm-triggered recording with sound, on a card of up to 512 GB.

Alarms with video

After a collision or an abnormal event, the camera raises the alert and uploads the video as evidence.

GPS and geofences

Real-time position, trip playback and zone entry and exit alerts.

ADAS · ADVANCED DRIVER ASSISTANCE

ADAS: the camera that watches the road

- Forward collision risk Warns when the vehicle approaches the one ahead too quickly.
- Lane departure Alerts when the vehicle leaves its lane without signaling.
- Following distance Checks that a safe distance is kept.
- Speeding Alarm when the speed you set is exceeded.

DMS · DRIVER MONITORING

DMS: detects fatigue and distraction

- Fatigue and drowsiness Closed eyes, yawning and nodding off.
- Phone use Talking on or looking at the phone while driving.
- Smoking at the wheel Detects smoking in the cab.
- Distraction Looking away from the road for too long.

MODELS

Two cameras, one platform

ADAS + DMS · UP TO 3 CAMERAS V18P

The most complete model: 1080p front camera, cabin camera and an input for a third camera in the cargo area, at the rear or on the side.

- 3 channels: 1 × 1080p + 2 × 720p
- H.265 compression: half the space
- 9–32 V DC power supply

ADAS + DMS · ALL IN ONE V20P

A single compact unit with a 1080p front camera and a driver camera, designed for the windshield of any vehicle.

- 2 channels at 1080p
- GPS, BeiDou, GLONASS and Galileo
- 9–36 V DC power supply

Which camera does your fleet need?

We advise you based on the type of vehicle and what you want to monitor.
